

## WorldPop datasets for the #30DayMapChallenge

Our full catalogue of WorldPop datasets can be found here: <https://hub.worldpop.org/>

- Gridded population counts (rasters)
  - [Individual countries with population estimates constrained to areas of settlement \(100m resolution\)](#)
  - [Global mosaics \(1km resolution\)](#)
- [Gridded population density \(1km resolution\)](#)
- Age/sex structured population estimates (rasters):
  - [Five year age classes for individual countries with estimates constrained to areas of settlement \(100m resolution\)](#)
  - [Five year age classes - global mosaics \(1km resolution\)](#)
  - [School-age populations for individual countries \(1km resolution\)](#)
- Gridded estimates of pregnancies and births (rasters):
  - [Estimates of births for individual countries \(1km resolution\)](#)
  - [Estimates of pregnancies for individual countries \(1km resolution\)](#)
- [Gridded building/settlement metrics \(rasters\)](#)
- [Migration flows](#)
- [Global flight data](#)
